

## ELEMATIC INSULATING ADHESIVE TAPES

### ITEM: N9422

Insulating adhesive tapes in PVC self-extinguishing with a high degree of electrical isolation (600 V) and mechanical protection for any applications in civil and industrial plants.

#### Features:

- Stretching at breaking point: 200%
- Electric rigidity: 40 kV/mm
- Operating temperature: -18 / +90°C

Tech. Code	N942215N	N942219N	N942219B	N942219R	N942225N	N942225B
Colour	Black		White	Red	Black	White
Width mm	15	19			25	
Thickness mm	0,13					0,15
Length m	10	25				
						

Conformity with the standard regulations CEI EN 60454-3-1 e BS 3924 VDE nr. 40039640

## ADHESIVE FABRIC-REINFORCED TAPES

### ITEM: N9430

Reinforced, high adherence, waterproof, suitable for packing, repairing, joining and protecting a wide range of materials. Silver.

Tech. Code	N943050/25	
Height mm	50	
Length m	25	

## ADHESIVE FABRIC-REINFORCED TAPES

### ITEM: 5080

Triple-layer highly tear resistant and waterproof up to four atmospheres, temperature resistant from -10°C to +70°C, suitable for high-sealing emergency repair. Silver.

Tech. Code	N944050/50	
Height mm	50	
Length m	50	

## TAPE STRETCHERS

### ITEM: N9450

Plastic body, adjustable clutch, suitable for tapes with a height of up to 50 mm.

Tech. Code	N9450S50
