

LIFTING CLAMPS WITH ANTI-DAMAGING PADS

ITEM: M7025

Lifting clamps for vertical handling of sheet metal with damageable surfaces.

Features:

- Pads in plastic material to secure the integrity of the gripped surfaces
- Body and components made of high quality steel
- The extent and thickness of the lifting capacity and jaw openings engraved on the body
- Suitable for vertical lifting and transport of all those types of materials at risk of damage: steel, aluminium, plastic, wood and marble

Advantages:

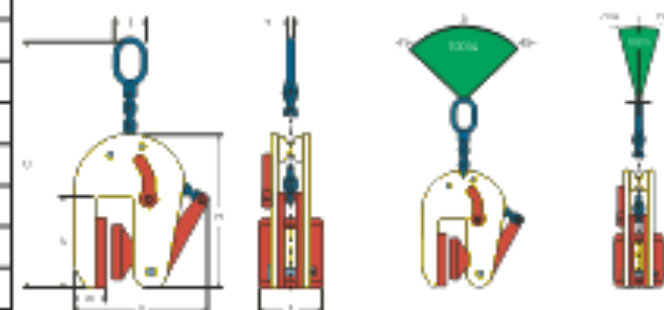

- The security mechanism ensures that it never releases the load when lifting or during transportation

Supplied with:

- Instruction manual for use and maintenance

ITEM: M7028

Lifting clamps with protective pads for the horizontal handling of sheet metals with delicate surfaces.

Features:

- Plastic gripping pads to protect the surfaces
- Body and components made of high quality steel
- Lifting thickness and capacity marked on the body
- Suitable for horizontal lifting and handling all materials with delicate surfaces such as stainless steel, aluminium, plastic, wood and marble

Advantages:

- Safety mechanism that prevents the load from being released during lifting and handling

Supplied with:

- Use and maintenance manual
