

Burr ERGONOMIC HANDLES

Tech. Code		For blades	For blade holders
F420501		B	-
F420502		E	
F420503		-	F4300

Burr DEBURRING TOOLS TYPE 1 IN SET

For deburring holes and edges, axial mounting of the blade, the compact coupling handle/blade makes it suitable for heavy duty works, supplied with E100 E200 E300 blades, mounts all E- type blades.

Tech. Code		Blades holder
F4210SET1		E

Burr DEBURRING TOOLS TYPE B IN SET

For deburring holes and edges, blades can be mounted on the telescopic holder axially or perpendicular, supplied with B10 e B20, mounts all B- type blades.

Tech. Code		Blades holder
F4220SET2		B

Burr DEBURRING TOOLS TYPE E IN SET

For deburring holes and edges on both sides, axial mounting of the blade on the telescopic holder, supplied with E100 E200 E300 blades, mounts all E- type blades.

Tech. Code		Blades holder
F4230SET3		E

Burr DEBURRING TOOLS TYPE BURR BI IN SET

For linear edges on difficult machining materials, can deburr single or double straight edges up to 14 mm thick. Round blades R10 can be used singularly or in couple, hand guard included.

Tech. Code		Supplied with
F4240SET4		2 R10 round blades

Burr DEBURRING TOOLS TYPE D IN SET

For simultaneous deburring on both side of sheet metal up to 3 mm thick, flat side 8 mm, supplied with M.D. D80 blade.

Tech. Code		Blades holder
F4250SET5		D

Burr DEBURRING TOOLS TYPE C IN SET

Scraper with triangular blade, 3 cutting edges for high quality scraping of flat, edges and holes, the telescopic holder enables access to difficult-to-reach areas, it is recommended to use the included key to disassemble the blade, supplied with C40 blade.

Tech. Code		Blades holder
F4260SET6		C

Burr DEBURRING TOOLS TYPE F IN SET

Strong tool for chamfering and deburring holes up to 20 mm, the telescopic holder enable to access depth areas, supplied with F20 countersink.

Tech. Code		Blades holder
F4270SET7		F
