

ALUMINUM OXIDE ABRASIVE CLOTH ROLLS

ITEM: 641PF

Resin coated corundum cloth with light and flexible cotton support. Optimal for all metal grinding by hand. Use by hand to grind hard to reach spots. Thanks to the high flexibility ideal for grinding and finishing concave and convex details. The strength of the support and the abrasive allow its use on all types of material.

ITEM: 641PF

Corundum grained, resin-coated cloth with a light and flexible cotton backing. Optimised for hand grinding of all kinds of metal. Ideal for sanding hard-to-reach areas. Highly flexible cloth, ideal for finishing operations of concave and convex detailed workpieces. The combination of a tough cloth back with the abrasive grit firmly anchored make it ideal on all material surfaces.
